Questlove

### TIME OUT SAYS

Questlove—who, among his myriad other talents, is an incredible DJ—lays down a set devoted to artists who checked out early. Fun! (Actually, in his hands, it probably will be.) The party is a celebration of the release of novelist Bradley Spinelli's new book, *Killing Williamsburg*. Bonus: It's being held at the club that once served as the epicenter of the really, *really* dead electroclash scene.
